

HAPS Alliance

HIGH ALTITUDE PLATFORM STATION

Learn About the HAPS Alliance

The HAPS Alliance is an industry association of High-Altitude Platform Station (HAPS) industry leaders that include telecommunications, technology, aviation and aerospace companies, as well as public and educational institutions. United by a vision to address diverse social issues and create new value through the utilization of high-altitude vehicles in the stratosphere, the Alliance is working to accelerate the development and commercial adoption of HAPS technology by promoting and building industry-wide standards, interoperability guidelines and regulatory policies in both the telecommunication and aviation industries.

Why Join the HAPS Alliance?

To collaborate with organizations across various industries to influence regulatory direction while promoting the benefits of high-altitude platform stations (HAPS) in the stratosphere.

To advocate for safety and nondiscrimination by building a HAPS ecosystem with telecommunication and aviation regulators.

To accelerate the development and commercial adoption of HAPS technology through industry-wide standards, interoperability guidelines, and regulatory policies.

To gain exclusive access and/or discounts to HAPS Alliance work products.

To lead and educate by making an effort to unify the voices of industry leaders into a compelling message for partners, regulators, and the public.
